Acceptable Use of Educational Technologies:
Guidelines for Faculty and Staff

**Purpose**: The acceptable use of instructional delivery technologies guidelines are intended to assist faculty and instructional staff by outlining various issues that need to be considered when delivering course content through a technological medium.

**Applies To**: These guidelines apply to face-to-face, hybrid, or online course content delivered through various technologies utilized in the scope and course of employment for the University including websites, Blackboard, iTunesU, etc.

**Contents**
- Accessibility
- Appropriate images and content
- Conduct
- Confidentiality/privacy/FERPA
- Copyright
- Intellectual Property
- KU Trademarks/logos
- Additional Resources

**Accessibility**

Educational technologies must be accessible to students with disabilities and compliant with the Americans with Disabilities Act and the Rehabilitation Act.

1246 W. Campus Road, Room 135
Appropriate images and content

Images that are selected for use in instructional materials should be educationally relevant, sensitive to the diverse audiences at KU, and not in violation of anyone’s rights, including copyright.

Instructors should refrain from posting content of a partisan political nature. Though such postings may be appropriate to a course dealing with current political behavior, or to one focusing on political satire, they are not an appropriate to use in cases where course content is unrelated. See the summary on laws, Board of Regents, and university policies related to partisan political activity at https://documents.ku.edu/policies/provost/PoliticalActivityKSStatutesandBORUnivPolicies.htm.

We encourage you to check out the freely available resources available through Creative Commons and the Public Domain: http://creativecommons.org/.

Conduct: instructor, staff/employee, student

All members of the University community are expected to conduct themselves in accordance with professional standards, University policy and the law.
